Professional Experience

Capgemini

Technical Writer

November 2024 – Present

- Tracked delivery schedules, maintained version control, and ensured timely and accurate documentation delivery, improving workflow efficiency.
- Restructured and revamped online help content, resulting in a 30% increase in user satisfaction and usability.
- Diagnosed and resolved HTML and CSS issues in the product's online help portal, ensuring consistent rendering and a polished user experience across browsers.
- Integrated AI-assisted writing tools (e.g., ChatGPT, GitHub Copilot) into the documentation workflow, reducing first-draft turnaround time and improving content consistency.
- Created product video tutorials from scratch and integrated them into the documentation site.

Kovai.co

Technical Writer

September 2021 – December 2023

- Developed high-quality documentation and conducted peer reviews, resulting in enhanced user understanding of products.
- Liaised with customer support team to reduce support tickets by 50% via a robust SaaS knowledge base, streamlining issue resolution.
- Optimized SEO practices for the documentation site, which resulted in an 80% increase in organic traffic and the generation of valuable leads.
- Revamped and restructured the documentation site for a 40% boost in user satisfaction and usability, and a 25% drop in bounce rate.
- Created comprehensive API documentation and engaging use case articles for key endpoints.

Key Achievements

- Architected an automated output generation tool leveraging OpenAI Agents, resolving a long-standing team bottleneck and significantly boosting productivity by eliminating manual documentation effort across the pipeline.
- Proofread UI/UX texts, including labels, messages, and other UI elements platform-wide in Visual Studio Code for Document360 2.0, reducing developer production time by eliminating manual updates.
- Created internal authoring and image style guides for unified technical writing and visual content standards.

Education & Certifications

- Bachelor of Computer Application – Jamal Mohamed College
- API Documentation Path – Postman Academy
